

## CHARLOTTE AVOT

**Age:** 35 **Current projects:** Maison d'Amor at The Angler's Boutique Resort, Taccia Di Capri shoe store in Miami Beach, a condo at Apogee and private residences on Star Island, the Venetian Islands and in Coral Gables.

**Preferred style:** Understated, European that doesn't look like a cold furniture showroom.

**Favorite designers:** Andr e Patman and Dorothy Draper are kindred spirits. **Favorite materials:** Distressed oak, natural stone and York Street's distressed leather for walls and cabinetry. **Favorite furniture collections:** I love outdoor furniture, especially from Sutherland and Janus et Cie. **Best trend to follow or not:** I don't like when designers do an entire room or house with furniture from only one showroom, even if it's a great resource. It's better to incorporate pieces with history and character. **Impressive local design:** The Setai, because of its unusual choice of materials and theme in relation to its context. **Favorite local design resources:** Urban Art, Niba Rugs and M.A.D.E. **Global design:** It's great the whole planet is finally waking up.

In Avot's home on the Venetian Islands in Miami Beach, gold pumps, Jimmy Choo, available at Jimmy Choo, Bal Harbour, [jimmychoo.com](http://jimmychoo.com).
